Director, Clinical Education – PT & OT
Massachusetts General Hospital, Boston, MA
Full-Time; Day Shift

Massachusetts General Hospital, ranked the No. 1 hospital in Massachusetts by *U.S. News & World Report* (2017-18) has a world-class opportunity for an experienced **Director, Clinical Education** within our **Physical & Occupational Therapy** Department.

The Director, Clinical Education functions as the educator in chief within PT and OT services. This individual directs and shapes the education vision and strategy and represents this vision to constituent groups internal and external to the department and organization. The Director, Clinical Education is charged with developing strong academic-clinical partnerships that support the development, implementation and evaluation of comprehensive and cutting edge discipline specific and interprofessional educational programs at pre-professional, professional, PT residency and post professional OT levels. S/he is responsible for the professional development of staff as educators, clinical teachers and mentors. The Director, Clinical Education actively participates in professional activities that influence clinical education. This individual oversees administrative requirements related to the role and works with the PT and OT Department Director to ensure adequate program resources.

Requirements:

Graduate from an accredited PT or OT Program with a degree commensurate w/ current education standards. Doctoral degree (DPT, DOT, OTD) or advanced academic qualification (Ed.D.) strongly preferred.

Description:

10 years of clinical practice experience in acute care and ambulatory practice settings.

Minimum of 5 yrs. experience directing clinical education activities, preferably within an academic medical center or related comparable experiences preferred.

Proven leadership experience within a complex health care environment.

Licensed or license eligible in state of Massachusetts.

Strong experience base with interprofessional teaching/practice with a proven ability to develop interprofessional training experiences preferred.

Demonstrates a breadth of clinical experience and understanding of PT and OT practice, including specialized areas of care in ambulatory and acute care settings.

Has a proven ability to develop and foster effective relationships internal and external to an organization.

Proven record of influencing the development and evaluation of clinical education programs in collaboration with other clinical and/or academic colleagues.

Effectively manages conflicts and resolves situations while ensuring that high quality care is provided and learning occurs.

Excellent presentation and organizational skills.
