Expires: June 12, 2018

Description: Introduces science, assessment and application techniques for Kinesio Taping® Method. Includes history, theory of stimulus transmission through skin and resulting therapeutic benefits. Corrections presented for Epidermis, Dermis, Fascia, Space, and Muscle in case study format, and includes performance of Manual and Movement Assessments. Tendon, ligament, circulatory/lymphatic and functional corrective techniques are introduced. Participants practice new Manual and Movement Assessments and taping for conditions involving head positioning, cervical, thoracic and lumbar spine, upper limbs, lower limbs and trunk. Time allowed for questions and discussion to determine general progression of treatment clinically.
