Expires: September 14, 2021

The Department of Physical Therapy at Thomas Jefferson University invites applications for a 12-month faculty position. The candidate will join a productive team of senior and junior teacher scholars. The diverse translational and clinical research activities across the Thomas Jefferson University community and Jefferson Health System afford opportunities for collaboration. Currently the faculty are engaged in musculoskeletal rehabilitation, neurorehabilitation, translational, and clinical research, as well as education research inclusive of the scholarship of teaching and learning. The Department features research laboratory spaces with state-of-the-art instrumentation in addition to 10,000 sq. feet of classrooms and teaching laboratories.

The faculty within the Department of Physical Therapy embrace a culture of academic and clinical excellence through interprofessional education and practice, innovative teaching in the Hamilton Clinical Simulations Center, and integrated experiential learning across the Jefferson Health system. The Department of Physical Therapy consists of 15 full-time faculty, clinical laboratory instructors, and student enrollment of 180 students. The Department of Physical Therapy is an integral part of the Jefferson College of Rehabilitation Sciences which also includes the departments of Exercise Science (inclusive of Athletic Training), Occupational Therapy, and Speech Language Pathology. The College offers a variety of advanced practices certificates and two ABPTRFE accredited residencies in neurologic and orthopedic physical therapy.

Thomas Jefferson University has ten colleges and three schools that offer more than 160 undergraduate and graduate programs. Our University is dedicated to inter-professional and transdisciplinary approaches to learning that offer a vibrant and expandable platform for professional education. Through this unique model, we are preparing our students for current and yet to be imagined careers. Jefferson College of Rehabilitation Sciences is an integral part of Thomas Jefferson University committed to educating future healthcare professionals of the highest quality and ethical standards for contemporary practice in the global community.

Candidates with expertise in neurology, pediatrics, movement science, evidence-based practice, and related topics are particularly encouraged to apply. All candidates with research interests relevant to rehabilitation will be fully considered. Candidates must have an earned doctorate. Preference will be given to candidates with an academic doctoral degree (PhD, EdD, DSc, etc.) The ideal candidate will also possess board certification in a clinical specialty and be eligible for licensure in Pennsylvania. Academic rank and salary are commensurate with qualifications. Expectations for teaching and service are negotiable relative to level of extramural funding.

Review of applications will begin immediately. The position will remain open until filled.

Interested candidates should submit on-line application/CV/Cover Letter:
