## Successful Mentorship for Residency and Fellowship Education

### Overview

**Successful Mentorship in Residency and Fellowship Education:** This is extensive course on mentoring concepts and strategies is a valuable training course for program directors who are designing training new and ongoing mentor training for mentors, new mentors, and for experienced mentors who are updating their own skills and/or providing oversight of other mentors. The course is most beneficial if taken in segments with reflection and discussion among mentors to integrate the concepts and strategies. A range of interactive and self-reflection activities are provided along with an extensive reading list of current research.
