

Moss Rehab Neurologic PT Residency
Kimberly Miczak
miczakk@einstein.edu

Overview:

Mentor training workshop with PT and OT: The interdisciplinary collaboration is a strong commitment of Moss Rehab. Mentors from varied specialty areas come prepared with practical case examples to share and problem solve with the group. This fosters rich discussion from varied mentors and discipline-specific perspectives, and takes the workshop from more of a theory-based experience to a practical training session. The session is also tailored to the mentors' and program's needs.
